THIRD YEAR—NO. 880

BENTON HARBOR, MICH., SATURDAY, AUGUST 6, 1898.

TWO CENTS

A CRAZY MAN SPAIN MAY FIGHT NEW FOE.

Tore Up Room at the Fonger House.

Gives Name as Sheldon Brown Anderson.

Thinks He Is an Agent of the Almighty

And Expects to Photograph the World.

A boarder at the Fonger House on West Main street was suddenly taken raving mad last night and tried to smash the furniture. He came down town and disturbed the peace and was landed in the city jail. This morning he was examined by Drs. Bostick and Sowers and they found him a raving maniac. He was taken by Chief Hepler to the county jail and his case was stated before the probate judge. An effort will be made to find his home. The law is such that Judge Van Riper cannot send him to an asylum if it is found that he is not a resident of Michigan.

At 5:05 last evening a boarder at the Fonger House, a photographer who has been engaged in photographing the many resorts about here, asked the proprietor what time it was. When told he jumped up with the look of a demon on his countenance and grabbed the clock and with an oath declared he would grind it to powder as it had run too fast and beat him out of \$50,000. He was dissuaded from his purpose and then came out on the street. He yelled and swore about the street and he was accosted by the chief of police who informed him that he could not yell on the streets until he took out a license and the chief told him to keep still. "I am an agent of God," the wild man replied, "and you or no one else can keep me from talking. If you try to interfere with me the wrath of the Almighty will visit you and the curse will always follow you. God sent me to photograph this universe and he is going to give me a billion dollars for the job."

The man lowered his voice and denounced the Palladium and its editor in the worst terms. He had taken some manuscript to that office for publication and it had been rejected. The rejection has entailed a loss of a million to the wild man and he predicted that the wrath of heaven would come down on that paper and that it would never live to get out six more papers.

The man gave his name as Sheldon Brown Anderson, and his home in Virginia, West Virginia and Chicago. He is about 35 years old, well dressed and good looking. This morning he offered a NEWS reporter \$1,000 to get him a lawyer.

Drs. Bostick and Sowers in company with Chief Hepler visited his room at the Fonger House. It is a sight. The carpet is all eaten up by the chemicals he used in photographing, bits of paper are strewn about the floor and the room generally disarranged. The bed looks as though it had never been occupied and when the doctors asked him when he slept he replied, "I never sleep." Mrs. Fonger thinks this is so for she has been awakened by strange noises, like the sound of a slow and steady grinding, at all times in the night. He is back three weeks on his board at the hotel.

AFTER WAR.

100,000 Men Necessary to Preserve Peace.

Washington, Aug. 6.—Chairman Hull of the house military committee says that a standing army of 100,000 men will be necessary after peace has been brought about.

GOOD TIMES

Will Strike America at the Close of the War.

London, Aug. 6.—London statisticians predict a wave of prosperity for America as soon as the war with Spain over. There will be a large demand for American securities in the European markets.

LATE BULLETINS.

Washington, Aug. 6.—It is expected that Secretary Long's order discharging the Michigan reserves on the auxiliary cruiser Yosemite will be revoked this afternoon.

Washington, Aug. 6.—Battery C, Connecticut light artillery, composed of Yale students, has been ordered to Porto Rico.

Carlists Ready to Invade the Peninsula.

London, August 6—Dispatches from Gibraltar say that the agents of Don Carlos, the pretender for the Spanish crown, are very active there.

Representatives of English firms have booked orders from there for 20,000 rifles and 2,000,000 cartridges to be delivered in Switzerland. Spain is likely to have a war of revolution as soon as she is through with America.

10,000 SOLDIERS SICK AT SANTIAGO 4,000 AMERICANS, 6,000 SPANIARDS

Washington, Aug. 6.—Gen. Shafter reports that the number of sick among his troops has now reached over 4,000.

Madrid, Aug. 6.—Official dispatches from Santiago say that there are 6,000 sick and wounded Spanish soldiers at that place and that they are inhumanely treated by the American officials.

VOICE IS PEACE.

Believed That Spain's Answer is Here.

Queen Regent Approves of Peace Policy.

Washington, Aug. 6.—Up to 2 o'clock this afternoon the French Ambassador had not visited the White House carrying the answer of Spain to President McKinley's terms of peace.

It is strongly believed that the reply of the Madrid government is in Washington. The under secretary of the French legation was credited with saying this afternoon that a telegram was received last night from Madrid containing Spain's answer. He would not say whether the answer was yes or no but the general impression here is that the terms of the United States will be accepted.

Later an official statement was given out at the French embassy that neither Spain's reply nor any cable of importance had been received. The statement was added that it might arrive tonight or tomorrow. In spite of the conflicting statements many believe the reply is here.

Madrid, Aug. 6.—The Queen Regent has approved the reply of the Spanish government to the United States accepting the conditions laid down by the latter under which peace may be concluded.

London, Aug. 6.—A dispatch from Madrid says that ministerial council last night decided to practically to accept the conditions laid down by the United States.

A BOLD ROBBERY.

Cool Way Richland Bank Was Plundered.

Kalamazoo, Aug. 6.—One of the most deliberate and daring bank robberies that was ever perpetrated in Michigan was successfully accomplished at Richland, this county, Friday morning between 2 and 3 o'clock.

At 2 o'clock a rig drove up in front of the Union bank and six men deliberately entered the front door, plastered the safe door with dynamite, withdrew to await the explosion, entered again and plastered the second set of doors, withdrew a second time, and again repeated the performance until the inner recesses of the safe were blown out into the street, while the inhabitants in the vicinity were confined at the

point of pistols within their houses, and saw and heard the whole affair.

The bank was completely gutted, even a watch and chain belonging to the cashier's wife being taken. Over \$5,000 in cold cash was secured. Every paper was examined. The bank floor was littered with papers and cancelled bank checks.

The depositors will not lose a cent. Not a clew has been found to the burglars.

MADRID HEARS

Of the American Advances in Porto Rico.

Madrid, Aug. 6.—It is reported that the minister of war has received orders from the government not to force resistance in Porto Rico and San Juan to the utmost. This order is at the instigation of Premier Sagasta who deprecates any unnecessary loss of life. It is known here that the island will certainly fall into the hands of the Americans.

Madrid, Aug. 6.—Gen. Macias today sent a dispatch from San Juan to Gen. Correa saying that a body of American cavalry accompanied by natives entered the towns of Adjuntas and Utuade Thursday. A skirmish took place on the Descalaabrado river, which crosses the San Juan road five miles east of the Juan Diaz. The Americans have disembarked and captured the light houses at Cabezas, Cape San Juan.

DR. HILBORN HOME.

He Has a Furlough of Twenty Days to Rest up.

Dr. E. N. Hilborn, one of the young men who went to war with Co. I and who later was taken with the measles while in Cuba is now at the home of his cousin, Miss Maude Hilborn, 200 Lake avenue.

Dr. Hilborn enlisted as a private, was promoted to a corporal which position he held four days when upon recommendation of the regimental surgeon he was transferred to the hospital corps which place he was filling when he was sent back to this country on account of illness.

The doctor tells one on Lieut. Pound. The day after the plucky lieutenant was struck by a piece of shell Co. I was ordered out and when Lieut. Pound heard that his company was booked for active duty he hastened to the doctor to get the wide bandage, which was around his head, exchanged for a narrow one in order that he could see to be with his men.

Dr. Hilborn had a siege of fever after recovering from the measles and is very weak but thinks he will be able to join his company in another month.

THE PRESS TO PRESS ON

Niles, Aug. 6.—The receivership case of the St. Joseph Press was argued today before Judge Coolidge. Kelly & Brasella represented Willis W. Cooper, the stockholder, asking for a receiver and an injunction to stop the

junction and a receiver were both denied.

The complainant also asked for an accounting, and this will probably be granted. Mismanagement was charged on the part of the former publisher. J.

THOSE DISCLOSURES

About the Condition of the Army in Camp at Santiago de Cuba.

GAME AT A MOST TICKLISH TIME.

Might Have Given the Dons the Cue to Abandon Peace Negotiations.

Attempt Made by the Censor to Prevent the News Getting Outside of This Country—Some More Remarks from Roosevelt Not Improbable—War Department Makes a Statement in Defense of Itself—Soldiers Embarking for Home.

Washington, Aug. 6.—When the president closed his official work yesterday he had not received the reply of Spain, nor any intimation as to how soon the inquiry might be expected. Two days have now passed without a word officially from Spain, either in the way of inquiry or response. There is the same confident belief among officials that there has been from the first that Spain's answer will be a reluctant but not the less conclusive acceptance. At the same time it was suggested yesterday in some quarters that there was a possibility the disclosures made by the American general at Santiago concerning the serious condition of our troops might be a straw at which the Spanish cabinet would grasp. This is quite doubtful, however, as there is a question whether the statement of the American general ever got outside the borders of the United States owing to the strict censorship imposed Thursday night.

May Be Some More Chapters. The day was dull at the war department, considering the existence of a state of war, had it not been for the publication in the newspapers of the statement signed by the military commanders at Santiago, and the short but sharp correspondence between Colonel Roosevelt and Secretary Alger. These afforded food for much discussion among all classes of officials, and the belief was general that there are to be further interesting chapters in the correspondence, provided it is deemed harmless to the best interests of the army to allow further publications. In proof of the allegation that the war department had bestirred itself to succor the unfortunate army in Santiago before the united protest was made, the following statement is given out by the secretary of war regarding the shipment of troops north from Santiago:

Was Department on the Defensive. "Until quite recently it was supposed that yellow fever was epidemic in Santiago, and it was not believed that it would be safe to send shiploads north of men largely infected with yellow fever. The disease, it was believed, would spread rapidly on shipboard and result in the death and burial of many at sea. On the 28th ultimo the secretary of war telegraphed to General Shafter that as soon as the fever subsided the men of his command would be moved north to a camp that had been selected for them on Montauk Point. When, however, the true condition was made known, an order was issued to General Shafter to move his command north as rapidly as possible and all ships in the quarantine service possible to get to Sant ago were sent there, and the great liners, St. Paul and St. Louis, were also ordered there. All this was done before the communication signed by General Shafter and his generals was received, and before Colonel Roosevelt's letter was published."

Roosevelt Not Partial to the Gaff. Alger's tort cable to Roosevelt in reply to the latter's letter has laid the secretary open to a return attack from Roosevelt, and those who know that gentleman are confidently expecting a sensation. One of Colonel Roosevelt's former associates said: "Teddy has never humbly taken the gaff and he is not going to begin now. If I know anything about the man, and I think I do, having been with him more or less for twenty years, he will be in the open within the next forty-eight hours, screaming like a panther, defying Secretary Alger and demanding a court martial. He will take chances of being dismissed in disgrace from the service."

TWELVE THOUSAND AT A TRIP.

Capacity of the Transports Available to Bring the Men Home.

Washington, Aug. 6.—The war department has ordered the large fleet of transports at Ponce to proceed to Santiago, there to join with the transports already at Santiago in bringing General Shafter's army back to this country. There are ten large transports with the fleet of Ponce, some of them, like the Mobile, having a capacity of 1,000 men. In all they have a capacity of 6,540 men. This, with the capacity of the ships already at Santiago, will give a carrying strength of over 12,000 men at a trip. The embarkation has begun at Santiago.

Army officers are greatly relieved to know from the Santiago dispatches that what appears to have been a great danger to the American arms has been safely passed by. The reports of the American commanders at Santiago gave for the first time to the public news of the terribly demoralized condition of the American army. If this state of affairs had been known a week ago the most serious results might have followed. The Spanish government might have been excited to refrain from making peace overtures and to prolong the resistance.

The publicity given to these reports is most strongly deprecated by almost every official of the administration, but the American army at Santiago is being loaded upon transports as rapidly as possible and it is hoped that within a few days the bulk of the army will be at sea bound for Montauk Point, L. I. In the place of these weary and battle-worn troops will be five regiments of immunized, now due at Santiago, supposed to be proof against yellow fever, and at any rate gifted with a fresh store of energy and health to draw

reback for allowing publication of the so-called "Round Robin," for the secretary of war confined his communication to a simple inquiry as to whether the General had given publicity to the Roosevelt letter and the "Round Robin," but it is certainly the fact that henceforth the effort will be made to guard such information more closely from the public.

ILLINOIS EIGHTH GETS ORDERS.

Colored Regiment Will Go to Santiago—Ninth Leaves for Florida.

Springfield, Ills., Aug. 6.—Governor Tanner received a telegram from the war department late yesterday afternoon that the Eighth Illinois Infantry, colored, had been ordered to Santiago de Cuba to replace the First Illinois Infantry, which will be removed to Long Island. It will be two or three days before the Eighth will leave Springfield. The Ninth Illinois Infantry marched out of camp yesterday afternoon and boarded trains for Jacksonville, Fla., to join the Seventh army corps, General Fitzhugh Lee commanding.

The field and staff officers of the Ninth are: Colonel James R. Campbell; Lieutenant Colonel Eben Swift; Major J. J. Funkhouser; Major M. W. Spencer; Captain Samuel B. Wright, adjutant; Captain Marion Bolles, chaplain; Captain Tolliver, quartermaster; Captain Andrew Hall, surgeon; Lieutenants Gregory and Washburn, assistant surgeons.

Governor Tanner has, upon the recommendation of Colonel Young, First Illinois cavalry, appointed Second Lieutenant Henry Bunn, first lieutenant of Troop D, First cavalry, Springfield, to succeed Lieutenant John D. Talbot, resigned. Sergeant John E. Dalby has been appointed second lieutenant to succeed Lieutenant Bunn.

AGUINALDO TO WILDMAN.

Philippine Insurgent General Wants to Know "Where He Is At."

New York, Aug. 6.—The Journal has a cable from Hong Kong, stating that recently Aguinaldo, the insurgent chief in the Philippines, wrote to Consul General Wildman, asking him whether he (Aguinaldo) was fighting for annexation, independence or protection, and saying that he (Aguinaldo) could take Manila, but if America takes it he can save his men for the future. He tells the consul general that he (Aguinaldo) is "not both fool and rogue," and that the interests of his people are as sacred to him as Wildman's are to him.

A dispatch at London to The Daily Mail from its Hong Kong correspondent says that Wildman replied: "Trust to the honor and justice of the United States, and let nothing interfere with the first task of throwing off the Spanish yoke. I believe in you. Do not disappoint me."

Mortality Report from Santiago.

Washington, Aug. 6.—The war department last night posted the following from Santiago, Aug. 5: Sanitary report for Aug. 4.—Total sick, 3,354; fever cases, 2,548; total new cases of fever, 502; total cases of fever returned to duty, 549. There were 16 deaths on Aug. 4, including Peter L. Vanderboon, company L, Thirty-fourth Michigan, malarial fever; Patrick Nealy, company F, Thirty-fourth Michigan, yellow fever; Owen Thornton, company B, Thirty-fourth Michigan, yellow fever; Paul Zambach, company K, First Illinois, yellow fever.

Tanner Congratulates Alger.

Springfield, Ills., Aug. 6.—Governor Tanner yesterday wired Secretary of War Alger as follows: "I congratulate you heartily on your fitting rebuke to Colonel Roosevelt. The National Guard of Illinois, and I believe of the whole country, is composed of the best blood of the nation. As a rule they are trained soldiers, and in my opinion equal to any emergency or to any like number of soldiers on the face of the earth. These brave, patriotic men and their families and friends at home will highly appreciate your telegram."

Wisconsin Men Well Cared For.

Madison, Wis., Aug. 6.—A personal letter to Adjutant General Boardman from Surgeon General Byers, dated Charleston, Aug. 2, gives the following concerning the sick Wisconsin soldiers: "I find Major Morgan and officers, also men of the Second and Third, well cared for and all but a few doing well. The hospitals are run well."

Wisconsin Man Dies in Florida.

Jacksonville, Fla., Aug. 6.—Lieutenant Sartoris, of General Lee's staff, is slightly ill with malarial fever and probably will be given a ten days' leave of absence. Private B. Hart, of company G, First Wisconsin, died yesterday of typhoid fever after a short illness. The body will be sent to his home at Oregon, Wis.

Camped on Historic Ground.

Camp Alger, Aug. 6.—General Davis' division is encamped on the long ridge of hills where the Confederate General Early rested with his army and threw up entrenchments before the first battle of Bull Run.

Russell Harrison on Duty.

Jacksonville, Fla., Aug. 6.—Major Russell B. Harrison, of General Lee's staff, who has been appointed provost marshal for the Seventh corps, assumed the duties of his position yesterday.

Culver's Regiment at Newport News.

Newport News, Va., Aug. 6.—The Fifth Illinois regiment, Colonel Culver commanding, arrived here yesterday from Chickamauga Park to embark for Porto Rico.

Captain Clark, of the Oregon, Ill.

Washington, Aug. 6.—Captain Charles E. Clark, commander of the battleship Oregon, has been examined by a medical board and as a result ordered home.

Four Men Lost at Sea.

Pensacola, Fla., Aug. 6.—The fishing smack Isabelle arrived here yesterday with nine survivors of the tug W. J. Keyser, of this port, which left here Tuesday morning to meet the tug Nimrod, of Mobile, off Cape San Blas, and was wrecked that night. Captain W. A. Allen, commanding the tug; the colored steward, Henry Brown; Walter Brown, a white boy, and — Goodfellow, a white fireman, were lost.

AFTER OUR PEACHES

Michigan Crop Will This Year Largely Be Shipped East...

Grand Rapids, Aug. 6.—The first carload shipment of peaches from this market was made early this week, but the season will not fairly open until the middle of the month. The peach crop will not exceed a half or two-thirds the normal, but there is a vast increase in the number of trees in bearing and the prospects now are that more peaches will be offered than western Michigan has ever before known. Two and three years ago the peach growers made money and this encouraged the planting of many new orchards and it will be the fruit from these new orchards that will swell the volume.

It is expected the eastern market will absorb a great quantity of Michigan peaches this year, and buyers from the New England cities, New York, Philadelphia and Baltimore and other eastern points have already ordered hotel accommodations and arrangements for business as soon as the season opens. Two years ago considerable Michigan fruit was shipped east and its fine quality produced a very favorable impression.

Maryland and Delaware Short.

This year the Maryland crop is almost a total failure and the Delaware and Jersey crops are short. This condition of the eastern crops will leave the market wide open for the Michigan peach, and hundreds of carloads will go into that section. Inquiries are also being received from Minneapolis, St. Paul, Omaha, Duluth and other western points as to the Michigan prospects, and it is probable that quarter will help dispose of the Michigan surplus. The west has not been a heavy peach eating market in the past for Michigan, but in recent years the west has been cultivated to some extent, and it is expected that many peaches will

be shipped in that direction this season.

Improvements in Shipping.

When the first peach shipments were made from here the fruit was sent almost entirely by express. That was about 10 years ago, and the express company operating in the fruit district had a bonanza. Then when the traffic had assumed large proportions the Chicago & West Michigan railroad put on a fast freight train especially for peaches. The facilities afforded in those early days were not sumptuous. An ordinary box car was used and inexperienced in packing and handling the fruit was often damaged, and in warm weather it suffered from the close, unventilated cars. The ventilated cars, that is, box cars equipped with wire screen doors, were put on as an improvement, and instead of piling baskets one on top of the other until the car was full to the top, the cars were furnished with timbers which, resting on side cleats, formed removable shelves for the baskets to rest on.

The ventilated and shelved cars will be used this year for short shipments, but all the roads have equipped themselves with refrigerator cars for the long hauls. Refrigerator cars were procured last year, and two years ago, but the shippers were required to pay for the ice used. This year the ice carload shipments will be furnished free, and a safe delivery in perfect condition is assured. By the use of the refrigerator cars, peaches, one of the hardest fruits to handle, will be delivered in as choice condition as they can be found in Michigan.

In addition to peaches, there will be an immense crop of plums, which will be ready for market the latter part of the month, and pears will also be fairly abundant. A good crop of apples is reported in the territory north of here, but the reports are not so favorable south.

SUGAR BEETS.

TWO MEETINGS HELD LAST EVENING.

One at Sodus and the Other at Bangor and Both Were Very Enthusiastic.

Two meetings in the interest of the sugar beet factory were held last evening—one at Sodus and the other at Bangor.

The Sodus meeting was addressed by John E. Barnes, F. H. Ellsworth and J. R. Price. The attendance was not as large as would have been the case had the meeting been more widely advertised. The farmers present took a lively interest in the matter.

At Bangor the meeting was addressed by J. J. Miller, C. W. Shriver and C. M. Garrison, the latter being a resident of Detroit, and a practical sugar beet man. Blank contracts were left and the farmers of that vicinity will contract to grow a large number of beets.

TEACHERS' INSTITUTE.

The Good Things in Store for Teachers Next Week.

Mrs. Alice V. Haley, of the Prang Educational company, Chicago, will be present at the institute Monday, Tuesday and Wednesday of next week to give instruction in the Prang system of drawing.

The instructors and teachers are having a good natured war in grammar over the subject of diagramming sentences. Superintendent Schiller of Niles being opposed to the method Mr. Schiller is original and independent in his ideas on the subject and opposed to rigidly following the Reed and Kellogg system, which is the standard in many schools.

HAS RETURNED.

A Dowagiac Gold Hunter Back from Alaska.

Dowagiac Republican: Frank Oyler has returned from his trip to the Copper river country, Alaska, richer in experience, and that is all. Frank says that it is worth a man's life to go there, and not much cheaper to get back; that the proverbial straight and narrow path is nowhere in comparison to it, and there is not money enough to hire him to try it over again. Life is too short. Frank says there is thought to be gold there and the rest of the party will stay and try to find it. At this time of year flowers are in bloom, the air is dry and pleasant, and living there is no hardship. It is the getting there, and the long winters that makes all the gold one gets cost all it is worth.

Mr. Oyler was a member of one of the Benton Harbor parties which left here last winter.

Bowersox to Go in Business.

South Bend Times: J. V. Bowersox, formerly publisher of the St. Joseph Evening Press, is said to be negotiating for the purchase of the Warsaw National Union, for so long successfully and profitably conducted by F. J. Zimmerman. Mr. Bowersox, though a life-long republican, voted for Bryan in 1896, and is therefore ripe for the editorship of a democratic paper in that Gibraltar of republicanism, Kosciusko county. If Bowersox gets control of The Union, there will be music in Warsaw. He is a hummer.

RIVER EXCURSION.

A Trip Up the River Saturday Afternoon and Evening.

The Y. M. C. A. will give an excursion up the river on the May Graham Saturday afternoon and evening leaving the Benton Harbor dock back of the Phoenix hotel at 2:30 and 7:30 p. m. Ice cream and cake will be served both on the boat and in the dining hall at Somerleyton and the round trip including refreshments will be 25 cents. Tickets can be secured at the dock or Y. M. C. A. rooms.

Free Rheumatism Cure.

Trial Package Free to All--Send for It--Tell Your Suffering Friends That They Can First Test Before They Part With Their Money.

A Genuine Rheumatism Specific That Cures Rheumatism No Matter if 20 Doctors Have Tried and Failed. It is a Marvelous Remedy.

Not a great doctor; not an eminent specialist; not a patent medicine man but just a plain, every-day citizen of Milwaukee says that anyone who will send him their name and address can have absolutely free a trial package of a remedy that cured him of rheumatism and has cured hundreds of others whose years of pain and suffering, helplessness and despair had well nigh sent to an untimely grave. It is a subject of great interest. Rheumatism is a most merciless demon. It spares neither the God-fearing nor the infidel. Born of the devil it seems to tantalize men's souls to see how much they can suffer and yet breathe the air that Providence filled with life.

N. H. Spafford, of Milton, Mass., sent for a free trial of Gloria Tonic. He had suffered for many years. At times the pain would ease up a little and fill his heart with thankfulness that perhaps life would not be such a burden after all. But no sooner would he rejoice than a sudden change of the weather would strike him another heartless twinge of pain and so it went year after year. The free trial reached him during one of these periodic spells and

gave him such relief that he continued the remedy and was completely cured. Mr. Smith, the discoverer of the remedy, was an invalid as a result of rheumatism, the disease affecting his feet. At times he could barely hobble about. He experimented with all sorts of drugs and by great good luck hit upon a combination that acted as a specific for the disease. At first he confined his efforts among those whom he personally knew, but in time the demand for his discovery became so great that he put the medicine up in regular form and has since sold it through the drug stores at \$1.00 a box. But most people who suffer are convinced that there is no cure for rheumatism, and to offset this doubt Mr. Smith sends a trial package free that all may test it first and thus learn of its wonderful merit. Send your name and address to John A. Smith, 544 Summerfield Church Building, Milwaukee, Wis., and by return mail he will send prepaid a package of Gloria Tonic, a remedy that will cure any form of rheumatism, no matter how many doctors have tried and failed.

Four Evening News Band Boys Offered Free Scholarships and Board..

Four of the best players in the Evening News Newsboys' band have been offered free scholarships and free board in the Orchard Lake military academy, provided they played in the military band at the academy. The boys to whom this offer is made are Willie Woodruff and Lynn Rowe, cornet players, Harry Wright, baritone, and Ed. Baushe, E. flat clarinet. The boys are still undecided as to whether or not they will accept.

BRANCH LINES.

Electric Line Will Build to Buchanan and Dowagiac.

Niles, Aug. 6.—The promoters of the new Michigan & Indiana electric road will build branch lines to Buchanan and Barron lake and possibly in the near future extend to Dowagiac. These extensions please the Niles people and this city, it is expected, will be made a central point, a fact which will bring thousands of visitors into the city, from which merchants will reap great benefits. The only objection made against the road is, who composes the company? A satisfactory answer to the question would cause the council to grant a franchise in a moment.

BOMBARDMENT OF MATANZAS.

Flagship "New York" and the Monitor "Puritan" Bombard Matanzas.

Benton Harbor, Mich., Aug. 6.—The battle of Matanzas will occur at Benton Harbor tonight at the bicycle track. The bicycle track is about midway between St. Joseph and Benton Harbor and can be reached by the street cars. This battle is very interesting as are all the rest of the moving pictures which will be shown. The performance begins at 8 o'clock. Admission 5 cents, children 10 cents.

THROUGH BUCHANAN TOO.

Does the South Bend Electric Road Propose to Go.

Buchanan Record: The proposed franchise asked for by the Michigan & Indiana railway company should be carefully looked into before granting. From an examination of the franchise it shows that the company asks for the use of one of our finest streets, our bridges and culverts, with scarcely a restriction for a term of 30 years and in return for these privileges does not propose giving the village a single cent of remuneration.

While the Record does not blame the railway company for asking for whatever they want, yet we believe the business men who comprise our board of trustees will see to it that the village will receive some compensation before we turn over our streets to any corporation, for their use and profit. The present condition of Portage street should be a valuable object lesson on this point.

Niles Giants Defeated.

Niles, Aug. 6.—The Niles base ball club met its first defeat yesterday afternoon by the professional South Bend Greenstockings. The score was 11 to 9. The Niles manager immediately after the game signed three South Bend players. Next Monday the Page Fence Giants come here for a game.

AGENT ABSCONDED

And Merchants Life Insurance Co. of Detroit Refuses to Protect Benton Harbor Citizens.

Several months ago a smooth insurance agent, a duly authorized representative of the Merchants' life insurance company of Detroit visited this city and secured the applications of Chas. L. Young, J. E. Enders and L. T. Burridge and collected of the three gentlemen the sum of \$115.24. The agent absconded with the money and the gentlemen who had paid their money did not receive their policies. President C. E. Foote of the company and Secretary Thos. Dillon have been in the city once or twice since their agent defrauded these citizens and their attention was called to the fraud. President Foote at one time promised to make the loss good but now the company refuses to do anything about it.

The attention of Commissioner Campbell will be called to the matter and it will be ascertained if an insurance company has a right to send a man out and rob the people. The affair will not increase the business of the Merchants life insurance company in this section.

Up to 3 o'clock this afternoon, 48 hours has passed and the Hon. Steve Douglas has not changed his politics.

If the war department court martials Gen. Sbafter it will merely be a repetition of history. When Columbus returned to Spain from Cuba he was court martialed. Sbafter is as deserving of such glory as was Columbus.

THE value of advertising in the news papers was fully appreciated by the Chicago merchants who had no chance to advertise during the strike of the stereotypers. The trade of the large stores suffered a wonderful falling off and the resumption of the publication of the papers was a godsend to the big Chicago stores. There is no investment that yields so large a return as newspaper advertising properly done.

THE United States has lots of room for such statesmen as Col. Roosevelt and Gov. Pingree. Neither care a fig for party or precedent but they are sticklers for principle. When the war is all over much of the glory will rightly belong to Roosevelt. It was he who made a fuss in the navy department until the magazines of Dewey's ships were filled with ammunition before starting to Manila. The original plan was to send Dewey with a scant supply of powder. Another thing that Roosevelt did was to stop the sham gun practice on the warships. He ordered the use of real shells, though some of the older officials thought it a waste of money.

THE war department in the selection of its camp sites and the retention of the troops in Cuba after their work was all done and well done has acted in a pig-headed and high-handed way. Whenever anyone whose knowledge made it possible for him to advise or justly criticize he has met a storm of abuse. Weeks ago Dr. Nicholas Senn of Chicago, who went to the front, advised the immediate return of the troops from Cuba. Unless this was immediately done he declared that hundreds would not return. Dr. Senn was abused, ridiculed and censured by officials. Now after 4,000 of the soldiers are sick his advice is accepted. Had the war department listened to one of the best equipped medical men in the country hundreds of lives would have been saved.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. LIGHTS SHINING AGAIN

Uncle Sam Has Undisputed Control of the Whole Porto Rican Coast.

CAVALRY VERY CLOSE TO SAN JUAN

Captures the Lighthouse Station of That City Without Resistance.

Marines Light Up the Beacons at Other Points on the Coast—Welcomed by the Inhabitants—Prospects of a Fight at San Juan if Peace Doesn't Intervene—Miles Pushes Military Operations—Western Troops Landed in Porto Rico.
Madrid, Aug. 6.—An official dispatch from Porto Rico says: "American cavalry, assisted by the insurgents, have captured Fueneta and Cabejas and the lighthouse station at San Juan."

Associated Press Dispatch Boat, off San Juan de Porto Rico, Aug. 4, via St. Thomas, Aug. 6.—[Copyright, 1898, by the Associated Press.]—The Americans have taken peaceful possession of the eastern portion of the island. Small parties of marines have been landed, who have lighted the lamps in the lighthouse at Cape San Juan and other lighthouses along the coast. They met with no resistance. Indeed, at Cape San Juan deputations of citizens came out to meet them. The warships now in this vicinity are the Montgomery, the Annapolis, the Puritan and the Amphitrite. The two former are looking after the transports with troops which left the United States and have scattered all about the island. The Annapolis rounded up the Whitney, the Florida and the Raleigh yesterday and they are now at Cape San Juan. There seem to have been a serious mistake as to the rendezvous, for no two ships got to the same place and it will take several days to locate them and get them to Ponce, where General Miles is waiting.

All the Signs of a Fight There.
Off San Juan the cruiser New Orleans alone maintains the blockade. The city is grim and silent, but back of her yellow walls there will be plenty of determination and fight when the Americans open fire. Captain General Macias has issued a proclamation, in the course of which he says: "Spain has not sued for peace, and I can drive off the American boats now as I did Sampson's attempt before." The daughter of the captain general is helping to drill the gunners in the forts. Altogether there are 9,500 Spanish regulars in the city. The troops of the enemy who are retreating from Ponce and the other towns on the south coast occupied by the Americans have not yet arrived. The German steamer Polynesia, with a cargo of rum, canned meats and tobacco, tried to run the blockade this morning but was stopped by the New Orleans.

Mutiny of Massachusetts Officers.
Washington, Aug. 6.—Two messages were received at the war department yesterday from Ponce, Porto Rico, the first announcing the death of a brilliant young army officer, and the second—from General Miles himself—touching the trouble in the Sixth Massachusetts its regiment, which was the subject of official inquiry by Secretary Alger. Details of the latter telegram are not obtainable, but it is apparent that General Miles is determined to repress sternly at the very beginning any departure from military discipline, even among the volunteer element in his command. As near as can be gathered the officers of the Sixth declined to submit to an examination which was prescribed by the brigade officers—the proper authority—and upon the insistence of the latter they sought to resign their commissions. Gen. Miles himself is dealing with the case and if he should decide to allow these officers to resign or discharge them from the service of the United States, and the latter is possible, the governor of Massachusetts will be called upon to appoint their successors.

MILES BUSY MAKING WAR.

Indiana, Illinois and Wisconsin Troops Disembarked—Bridge Seized.

Ponce, Porto Rico, Aug. 5, via St. Thomas, D. W. L., Aug. 6.—Major General Miles is proceeding entirely without regard to peace negotiations. Krag-Jorgensen are being issued. The Second and Third Wisconsin are moving up to the Sixteenth Pennsylvania today. Colonel Hulings has captured 5,000 pounds of rice. Thus far the enemy has not molested him. Major General Brooke's landing at Arroyo is successful. The troops from the Roumanian, four batteries of the Twenty-seventh Indiana, the First Missouri, the First Pennsylvania and the Third Illinois, are disembarking there. The Morgan troop of the Fifth cavalry and the Mississippi commissaries have arrived here. Lieutenant Hunter, of the artillery, was slightly wounded by one of our pickets last night. Captain Edgar Hugart, who died of typhoid fever, has been buried with military honors. General Roy Stone is repairing the road to Arecio, but a movement there is improbable.

At Descalabrado river, Six Miles beyond Juana Diaz, on the Road to San Juan, Aug. 4, via St. Thomas, Aug. 6.—The Sixteenth Pennsylvania of General Ernst's brigade, advanced to this point today and holds the bridge over the river. The Second and Third Wisconsin are expected tomorrow. No sign of the enemy is reported, but it is believed that the Spaniards are about 400 strong between this point and Coamo. The seizure of the bridge insures control of the road to Coamo. Pickets are being pushed out and they may collide with the Spanish outposts.

Quincy Street Railway Sold.

Quincy, Ills., Aug. 6.—The entire electric street railway system was sold yesterday to a Maine syndicate represented by W. E. McKinley, of Chicago. The same syndicate controls the street car systems and light plants in Joliet, Bay City, Champaign, Springfield (O.), Trenton (Mo.), and other cities. The consideration here was about \$220,000. The syndicate will at once spend \$100,000 for extensions and rolling stock.

LIGHTS SHINING AGAIN

Bradstreet's Finds in the Business of the Week Just Passed.

New York, Aug. 6.—Bradstreet's says today: The stimulating influences of the apparently near approach of peace, coupled with the generally expected beneficial effects it is hoped will flow from the opening up of new markets in the lands added to the national domain, seem to increase as the summer wanes. That the improvement, while as yet admittedly one largely of sentiment, is not entirely so confined, however, is proven by reports of a still further increased distribution of staple goods in the west, northwest and southwest, where the excellent crop situation has rendered harmless the supposed numbing effects of war.

Another encouraging feature of the week has been the perceptible growth in strength of the iron and steel situation, partly as the result, it is claimed, of the hoped-for approaching close of hostilities, but partly also as the result of an active demand on domestic and foreign account for nearly all forms of these metals. Encouraging export demand for our cereals, great steadiness of prices, largest recorded midsummer bank clearings, and fairly encouraging railroad earnings, are additional encouraging features of trade at the present time.

Prices are quite generally firm or tending upward, in spite of the midsummer quietness in many lines of trade. As a result of operations in July 32, or about one-third of all, staples advanced in value, 27 declined, while 44 remained steady or unchanged.

Business failures in the United States are at a minimum, numbering 189, identical in number with those of last week, but compared with 214 in this week a year ago, 269 in 1896, 203 in 1895 and 197 in 1894.

"PIZEN" DID NOT WIN HER.

McCullum Is Out the Price of the Laudanum and His Girl, Too.

Springfield, Ills., Aug. 6.—Absent and with the disadvantage of many miles between himself and his lady love, Harry Frank, of the Seventh Ill no. 5, is still safe in the affections of Miss Bergen, of this city. Wednesday night Private Frank's Springfield rival, Louis McCullum, took a dose of laudanum because the young woman refused to marry him. Frightened by the melodramatic suffering of her Springfield admirer Miss Bergen said that she would do anything Louis wanted her to if he would only get well, but now that Louis is well she has changed her mind.

Thursday McCullum, who has experienced a most remarkable recovery, decided to take a trip out of town. He called at the Bergen residence to bid Miss Bergen good-bye, but she was not at home to him. Her mother is authority for the statement that, now that her daughter is over the fright, she wants nothing of the emotional young man who would die on such slight provocation as a refusal to marry, and who made such a fiasco of his attempt to get off the earth. She still prefers the prosaic brass buttons at Camp Alger.

Scores on the Diamond.

Chicago, Aug. 6.—Base ball scores on League diamonds yesterday were as follows: At Philadelphia—Washington 2, Cleveland 1; at Chicago—Baltimore 0, Chicago 5; (second game) Baltimore 6, Chicago 1; at Pittsburgh—Philadelphia 0, Pittsburgh 3; at St. Louis—Brooklyn 1, St. Louis 5; at Cincinnati—New York 9, Cincinnati 5; (second game) New York 1, Cincinnati 9; at Louisville—Boston 2, Louisville 4.

Western League: At Kansas City—St. Joseph 1, Kansas City 11; at Minneapolis—Rain.

Firebugs Have It in for the Town.

Escanaba, Mich., Aug. 6.—Firebugs attempted to burn the city again Thursday night. The fire department was called out four times to put out as many fires, and the fifth was controlled without its aid. Each fire was in a different part of the city.

Embezzling Treasurer Arrested.

St. Louis, Aug. 6.—Theodore H. Schmidt, ex-treasurer of the Collinsville (Ills.) Building and Loan association, was arrested as a fugitive from justice in this city last night. He is charged with having embezzled \$5,800 of the funds of the association.

ABBREVIATED TELEGRAMS.

From "On a Man-of-War": Desertion from the navy at times seems almost inexplicable and can be accounted for only on the ground of fascination. LOCAL BREVITIES

CIRCUS day Monday.
NEXT Monday, August 8, LaPearl's big circus will be in the city.

THE Six Nation Medicine company on East Main street is attracting big crowds every night.

THE bombardment of Matanzas at the bicycle track tonight. Admission 15 cents, children 10 cents.

GO with the Y. M. C. A. excursion to Somerleyton this evening. The boat leaves Benton Harbor at 7:30.

AN article on the Warrington Gold mine of Havilah, Cal., by George M. Thresher appears in this issue.

IT is reported that Dr. J. Weir, of Millburg, will soon leave that place to practice medicine in St. Joseph county.

W. O. SMITH a member of the Weber Male quartette of Chicago, will sing tomorrow evening at the M. E. church.

THE C. & W. M. will run an excursion to Ottawa Beach and Grand Rapids tomorrow, the round trip being only \$1. The train leaves here at 8:10 a. m.

THE Mandolin club will furnish music on the Y. M. C. A. excursion to Somerleyton leaving at 7:30 tonight. The fare for the round trip including ice cream is 25 cents.

THE steamer State of Ohio will finish the season running from Cleveland to Erie, stopping at Ashtabula. The owners claim the O'Connor company did not live up to their charter agreement.

AT the union meeting at the Methodist church Sunday evening Rev. J. Spitt Wilson, a Methodist evangelist of Chicago, will preach. His subject will be: "Christ's solution of the Labor Problem."

THE members of the Y. M. C. A. extend a cordial invitation to everyone to enjoy the excursion to Somerleyton this evening. The fare for the round trip including dainty refreshments after you reach the resort is but 25 cents.

THE excursion to Chicago Tuesday night given by the ladies of the Christian church will go on the palace steamer City of Chicago. Wednesday, the day the excursionists will spend in Chicago, is the day the big museum in Jackson park will be opened to the public.

BENTON Harbor can claim for a citizen a wonderful strong man. His name is V. C. Cameron and his home is on Eighth street. He can take one of the large size spikes and with his hands can bend it double. He can also take a spike and with one hand drive it through a 24-inch pine plank. Mr. Cameron will appear in the Clark street museum, Chicago, all of next week.

YESTERDAY a drunken man on the streets voluntarily surrendered to Chief Hepler and said: "I am drunk and want to go to jail." to whom the chief replied, "The jail is open, help yourself to it." The man unaided staggered to the jail, took a long nap and when awakened walked out of the jail, looked up the chief and offered to pay for his lodging. If all violators of the law would do as this man did there would be little if any use for police officers.

C. J. BROWN has always posed as the friend of the colored race and in belated honor of Emancipation day yesterday he suddenly turned black. He has been suffering with rheumatism for several days and went to a physician and got a prescription for a liniment. Then after rubbing the liniment all over his body except his face he went to the Excelsior bath house and took one. In the liniment he used there was sulphate of lead and as soon as his body came in contact with the strong sulphur water he turned as black as any full-blooded negro. He spent the afternoon soaking his hands in vinegar and now he looks the same as ever. He will not dare dress up in his bathing suit for a month.

WARRINGTON GOLD.

A Mining Proposition of 30,000 Tons of Gold Quarts Ready for Milling.

Gold stocks I have declined to handle even when the prospects were very encouraging and upon proven ground. The formation of gold or silver deposits is very different from copper bodies and there are elements of uncertainty which do not become factors for consideration in a copper mine.

In recommending the purchase of stock in the Warrington Mining and Manufacturing Co. it is because the company is working a mine and not a "prospect."

This company has purchased the old Warrington mine at Havilah, Kern Co., Cal., including 30,000 tons of gold quartz on the dump and in the tunnels and drifts. The ore averages over \$12.00 per ton in gold and is all ready to be put through the mill. It will cost not more than \$4.00 per ton to handle and mill it. There is a profit of \$8.00 per ton over and above all expenses. The ore is now on hand and can be put through the mill at the rate of 750 tons per month, yielding a net average monthly profit of \$6,000 and requiring about three years' work to mill it.

That portion of the ore which is not on the dump is still in the drifts and tunnels aggregating over 5,000 feet in length and running down 600 feet below the surface. The property has been highly developed and timbered at an estimated cost of \$200,000. It is in the finest possible condition for profitable work and no expenditure of any kind is required for development or prospecting.

We have built right at the mine a 10-stamp mill of modern construction, engine, boiler, 2 concentrators, hoist, pump, cars, tracks, blacksmith shop and boarding house. We desire to add a cyanide plant to extract the gold from the tailings, when the machinery will be started up for a continuous run of three years on the 30,000 tons of quartz which we have on hand.

There is the further consideration that the property is on the mother lode of California and has a 9-foot vein of solid gold-bearing quartz averaging \$30 per ton and which has never been exhausted by the other companies located thereon, although operating since 1851 and reaching a depth of from 1,800 to 3,000 feet. There is, in the judgment of experienced mining engineers, an inexhaustible mine of wealth in the Warrington below the 600-foot level which will produce steady dividends for the stockholders and their children after them, for many years to come. The ore now above the 600-foot level will return to our stockholders two or three times the amount of their investment and leave them an immense body of high grade ore going down indefinitely, which cannot be exhausted during their lifetime.

There are but 200,000 shares of this stock offered for sale at 25c per share to pay for machinery. The stock is full paid and non-assessable. Full information and prospectus at my office in the Yore block.

Biting Finger Nails.
The chief finger nail chewers of the world are the French, and it was recently stated upon reliable authority that nearly two-thirds of French school children are addicted to the habit. Even for grown people there is hardly any habit, aside from the confirmed abuse of narcotics, more difficult to overcome than the habit of biting the finger nails. It requires a strong mental effort and constant vigilance to do this, for once a person has become thoroughly addicted to the habit he does it unconsciously, and is only reminded that he is marring himself when he gets one of his nails gnawed down to the quick. All manner of remedies have been advanced for the cure of the finger nail biting habit, including the placing of injuries and bitter compositions on the ends of the fingers, but none of the remedies amounts to much.

The only way to stop biting the finger nails is to stop. The Americans are next to the French in the finger nail biting habit, probably because the Americans, as a whole, are an exceedingly nervous people. A man who accomplishes his determination to knock off biting his finger nails may, by incessant mania, get them to look fairly well within a year or so, but finger nail biting, if long persisted in, ruins the shape of the ends of the fingers, and the nails can never be brought to look as well as those of the persons who permit their nails to grow as they were intended to grow.—Washington Star.

Too Much For Watson.
Only once did Watson, when a captain, never fail to punish a man for intoxication. This was in the summer of 1893 at Boston, when the San Francisco took the Massachusetts naval militia on its first practice cruise. Among the regular crew was old Alexander Parker, sailmaker's mate, who was never known to remain sober when there was liquor to be had. When the naval militiamen came on board a witty boatswain's mate, while no officer was near, sang out in an authoritative tone: "All you men having whisky on board lay below and turn it in to the sailmaker's mate for safe keeping."

Many amateur sailors took the bait, and in a few minutes old Aleck, sitting down below decks in his sailroom, was surprised to have a vast collection of flasks passed to him. He received all these as gifts with many thanks. He was found a day after sound asleep in his sailroom, literally covered with empty bottles of every size and shape. He was finally taken before the captain, to whom was told the circumstances. "Parker," said he sternly, "I have no words with which to discuss your case. Go forward."—New York Times.

Asked For a Shirt and Got a Wife.
During the civil war there was a certain young lady in Georgetown who found it in her power to do a great deal for the Confederate soldiers confined in prison at Washington. Young, beautiful, cultured, popular, of a wealthy and prominent family, she was frequently allowed admission to the prison, whither she always took her maid with a well stocked basket of good things for the poor boys behind the bars. One day as she was passing through a group of men in the common prison she stopped and said to them: "If there is anything you would like to have that I can bring you, won't you let me know? I shall be very glad."

One man stepped forward promptly. Bowing most courteously, he said: "If you will be so kind, I should like very much to have a clean shirt."

He was a young lieutenant from Louisiana, one of the handsomest and most elegant men I ever met, and when that young lady looked up into his brown eyes she found it in her heart to give him much more than a clean shirt, for she married him as soon as the war was over.—Philadelphia Times.

Corn Bread.
There is no more wholesome, palatable and strengthening article of food in the whole catalogue than corn bread. It is truly the staff of life of the rural laboring classes in the south from year's beginning to year's end. Among the browniest, toughest men in the country are the hands who work on the turpentine farms in Georgia. Their regular rations consist of one peck of cornmeal, five pounds of bacon and a pint of molasses per week. These articles constitute pretty nearly if not quite their whole bill of fare during the time they are in the woods cutting or chipping boxes or dipping turpentine, yet they are always well conditioned, hard of muscle and in good spirits.—Savannah (Ga.) News.

He Understood.
After she had studied the French bill of fare for a moment Mrs. Pokenham of Chicago turned to the waiter and asked: "Does oo understand Eenglese?"

"Oh, yes, I talk it almost like a native," he replied. "I was born and brought up in Indiana."

After that she had no appetite.—Cleveland Leader.

And Not James.
"Why," asked the lay figure, "do you call it a jimmy?"

The burglar shook his head sadly. "Well," he answered, "and his regret was apparent, 'I suppose I am rather more familiar with it than I ought to be. Yes.'"—Detroit Journal.

The dead heroes of the Buena Vista battlefield, where 6,000 American volunteers under General Zachary Taylor defeated 20,000 Mexicans under Santa Anna after a desperate and bloody battle, lie in a neglected and unmarked spot near Saltillo, Mexico.

There is a flywheel in Germany made of steel wire. The wheel is 20 feet in diameter, and 250 miles of wire was used in its construction.

Real Magic Number.
"I often hear of the magic number," said some one. "What number is it?"
"Why, nine, of course," replied some one else. "There are nine muses, you know, and you talk of a nine days' wonder. Then you bowl at nine pins and a cat has nine lives."
"Nonsense," broke in another. "Seven is the magic number; seventh heaven, don't you know, and all that; seven colors in the rainbow; seven days in the week; seventh son of a seventh son—great fellow, and!"
"Tush, tush," remarked a third. "Five's the number, you mean. A man has five fingers on his hand and five toes on his foot, and he has five senses, and!"
"Three is undoubtedly the magic number," interrupted another, "because people give three cheers and Jonah was inside a whale three days and three nights, and if at first you don't succeed, try, try again—three times, you see!"
This was received with some contempt by the company, and a soulful youth gushed out:
"Two, oh, two is the magic number. Onself and one other—the adored one! Just us two!"
A hard featured individual, who had been listening to the conversation hitherto unmoved, here remarked in a harsh voice:
"The magic number is No. 1 in this world, and if you want to succeed never forget it."
An interval of deep thought on the part of all followed, after which they went in silently to supper.—Brooklyn Citizen.

Jean Richepin's Career.
The story of how he came to adopt a literary career is sufficiently picturesque. For some time he had picked up a precarious livelihood by doing "odd jobs," including such prosaic occupations as that of bootblack and casual porter on the Quai Marcellin. One day he was engaged by a gentleman to carry to the railway station a heavy trunk. Arrived at the station, there was an instant mutual recognition. They were old college chums. "What are you doing here?" asked his friend. "Carrying your trunk, I believe," said Jean. "Why do you do this?" "Because I must," "Where do you live?" "Come and see," replied Richepin.
The future dramatist took his friend to his dwelling—a miserable room in an attic in the poorest quarter of the town. Upon the table lay scattered heaps of manuscripts—Jean's incursions in the realms of poetry when the more prosaic duties of the day were over. Looking through them, his friend was astounded at their quality. "Why do you carry trunks and blacken boots when you can do work like this?" he asked. Richepin had never given the matter a thought; he had never deemed these products of idle hours worthy of publication. Published they were, however, in a very few weeks and created an immense sensation. From that moment Jean Richepin has never looked back.—Westminster Gazette.

The Widow's Opinion.
In one of the suburban towns near the capital lives a widow well endowed with worldly goods, whose husband, with a sort of posthumous jealousy, has guarded against her re-marriage by providing that she shall lose all her property if ever she takes another husband. She has been receiving attentions for several years from an elderly Grand Army of the Republic veteran. She has been very good to him too. Once when he wanted to parade with his comrades she bought him an expensive blue suit with brass buttons on it. He wanted to marry her, but the will of the selfish dead man stood between. So after a time he married somebody else. The widow was broken hearted. She recalled the suit with the brass buttons. She recalled a hundred kindnesses shown the old soldier. She bewailed his perjury to her friends.
"Why," said one of them, "what did you expect? He wanted a wife to make a home for him. You couldn't marry him. So why do you complain?"
The widow wiped her eyes.
"I know I couldn't marry him," she said. "I didn't really want to marry him anyway, but, you see, it was such a heap of comfort to have a steady beau."—Washington Post.

Peculiarities of the Potato.
The opinion has prevailed among housekeepers that it is the good potato which breaks open when it is boiled. A scientist who has made potatoes a study insists that the good potato is the one that remains quietly in its coating of brown during all of the processes of cooking. Instead of the swelling and bursting of the skin being caused by the presence of starch it has been ascertained that albumen is the substance that causes this breaking open. An ordinary potato is made up of three-fourths of its weight in water, two-tenths in starch and one-fiftieth of nitrogenous matter. If it cracks and falls to pieces during the process of boiling, it is deficient in albumen, and therefore lacking in the most important constituent.—New York Ledger.

A Dumas Story.
Dumas the elder was rarely spiteful to or about his fellow men, but one day, when he happened to be in that mood, a friend called to tell him a piece of news. "They have just given M. X. the Legion of Honor," he said. Then he added, in a significant tone, "Now, can you imagine why they should have given it to him?"
"Yes," answered the great dramatist promptly. "They have given it to him because he was without it."
Good Progress.
"How are you getting along with your housekeeping?" asked the young wife's mother.
"Oh, splendidly!" she answered. "I have almost got so I can do things to suit the blind girl."—Washington

J. H. LaPearl's Elaborate, Expensive and Comprehensive Grand Free Street Parade.
One of the many grand and imposing sights of the J. H. LaPEARL'S SHOWS is the parade that takes place every morning upon the principal thoroughfares of every city visited by America's greatest popular priced amusement institution. The parade as seen this year, is fully double the size it was last season. It is the desire of J. H. LaPearl that no statement shall be made in any publication or advertisement that in any degree may have the appearance of exaggeration. The additions and enlargements made this year, overshadow all previous efforts. The grand street display will be a positive innovation to the millions. This majestic display of regal pomp and royal power, with its tremendous outpouring of a huge army of people, mounted knights and ladies, spurred and booted nobles and Esquires, Equestrians, charioteers, race riders, Embassadors, grandees, Kings and Queens clad in richest ermine and royal robes. An armored and superbly clad army will appear in endless and bewildering profusion.
There is to be seen in this grand free street pageant open dens of wild animals, ponderous elephants and camels draped in costliest cloth of gold and rich in oriental splendor. Bands of music under distinguished leaders, fairly fill the air with waves of liquid melody. This grand display of spectacular pageantry, and huge sights of rain or shine and is exhibited free to all upon the principal streets, and constitute a grand free public holiday for the tens of thousands who daily view the riches and splendors, thus gratuitously exhibited.
These GREAT ALLIED SHOWS will exhibit at Benton Harbor Monday, August 8.

CARBAGE NOTICE.
Do Not Dump It on East Main Street.
Parties are warned not to dump garbage on East Main street near Oak Creek. The health of the city demands that no decaying matter should be deposited in this neighborhood and offenders will be made to pay the penalty.

IMPORTANT NOTICE.
Owing to their large and constantly increasing practice in this community the Drs. B. S. & Co. Physicians of the American Medical and Surgical Institute, will continue to make regular monthly visits to this city for another year. Those who have been treated unsatisfactorily by other physicians, will have an opportunity to visit these eminent specialists. Their cures are remarkable. They are effected in cases which seem utterly hopeless and no one, no matter what his malady, should despair until after consulting these celebrated specialists. Every sufferer is invited to consult them in their private rooms at the Hotel Benton, Benton Harbor, Tuesday, August 21, between 8 a. m. and 7 p. m. One day only. Consultation free and strictly confidential. Also at Lake View hotel, St. Joseph, Monday, August 23.

THE LEADER STORE.

SEEK METHODS THAT MAKE WELL. Allopathic, H. H.opathic, hydropathic, hygienic, psychopathic, electric, physio-medical, dosimetric, bio-chemical, curative and other systems investigated and the best principles of each applied for cures in which they have proven the most beneficial. No one school of medicine has all the good things, there is some one remedy that is best of all in each. The real physician must represent not one school, system or path, but the healing art in all its entirety, study and compare a tentative measures, then select and apply the pleasantest, safest and surest. It is better to cure by any system that will accomplish its ends than to obstinately adhere to methods. The motto of a true healer is "Not cure or creed, but cure."
TO THE PUBLIC It is but just to you and myself that I make some mention of my fitness for the work I would undertake. I am of a medical family. I have attended and hold credentials from leading colleges of various schools or systems of medicine. For years I have successfully conducted a large practice. I have held high office in state and national medical societies, and received honorary professional recognition abroad. I have had considerable hospital experience was an intimate associate of distinguished experts and familiar with their methods; am something of a medical author and have been professor in reputable medical colleges. These statements can be easily verified. If they commend me to your confidence it will give me pleasure to professionally advise and assist healthward all who need and desire my services. Office practice preferred, but if properly arranged for, visits will be made.

MORPHINE.

**The Unknown Man Found on the Beach
Took an Overdose.**

The coroner's jury which was im-
paneled to determine the cause of the
death of the unknown man found on
the beach near St. Joseph yesterday
morning returned a verdict that he
came to his death by an overdose of
morphine administered by his own
hand.

Several witnesses were examined
who testified to seeing the man on the
sands and sleeping under the bushes
last Thursday.

Dr. A. H. Scott made an exam-
ination of the body today and said that
while the brain, lungs, heart and
stomach were all in a healthy condition
he would say that the man's death was
caused by the morphine. Dr. Scott
closed the examination by saying that
the death was not caused by drowning.

The unknown man was buried in the
St. Joseph cemetery this morning by
Undertaker Weekler.

SOCIETY AND PERSONAL

C. D. Stuart of Grand Rapids is in
the city.

Mrs. S. J. Rector, of Sodus, was in
the city today.

Mrs. Peter English is seriously ill at
her home on Morton Hill.

L. O. Chatfield and G. M. Thresher
were in Elkhart yesterday.

Mrs. G. F. Parsons left for her home
in Watervliet this morning.

Mayor Brant is confined to his room
at the Hotel Benton by illness.

Ferdinand Allen, of Battle Creek, is
visiting his parents on his vacation.

Miss Laura Burkam, of Harrison,
O., is visiting her friend, Miss Janette
McInnes.

Miss Grace Canedy, of Chicago
Heights, is the guest of Mrs. George
M. Thresher.

Charles Roberts, of Racine, Wis., is
in the city and will spend a week or
ten days here.

William Dade, the grower of the
first Osage melons of the season, was
here from Coloma today.

Charles Osborn, son of Mr. and Mrs.
Jerome Osborn, who has been very ill
for three weeks past, is slightly better
today.

Attorney V. M. Gore went to Niles
today to argue against the injunction
which is asked for by Willis W. Cooper
against the St. Joseph Press.

Mrs. J. A. L. Romig and two chil-
dren returned home last night, after
having spent three months with Mr.
Romig visiting in South Carolina,
Georgia, Virginia, Washington and
Niagara Falls.

Frank Woolley, editor of the Gazette
at Saybrook, Ill., with his wife arrived
here yesterday afternoon to visit his
uncle, Attorney N. G. Kennedy. Mr.
Kennedy had not seen his nephew since
he was three years old but notwith-
standing he at once recognized him
when he saw him aboard the steamer.

A party of young people gathered at
the home of Albert Decker, Ogden
avenue, last evening and spent some
pleasant hours in what might properly
be called a game of "questions and
answers." Albert patiently answered
all questions and told many interesting
things about camp life. Relics from
Virginia were displayed and by request
of the interested guests his huge
woolen blanket, also the rubber one
which he donned to show its use as a
cape to protect from the rain. The ugly
looking knife and its leather sheath
(which is worn by our boys) was
shown and cautiously handled.
Candles and fruits were served and
the evening was thoroughly enjoyed by all.

A Mighty Structure.

The greatest structure ever raised by
the hand of man is the Great Pyramid
of Cheops, founded 4,000 years ago, and
measuring 746 feet square on the base
and 449 feet high. It took twenty years
in construction; 100,000 men worked
for three months and being then relieved,
were succeeded by an equally large
corps. The massive stones were
brought from Arabia, 700 miles away.
The cost of the work is estimated at
\$145,000,000.

Comedy Of the Stage.

It was only a byplay at the theater
the other evening, but it was entertain-
ing to a limited portion of the audience.

Behind the little lady with a diminutive
hat that had its chief beauty in its
daintiness sat a member of the sex with
amazonian proportions and voluble
tongue. In a brief intermission of chat-
tering to those about her she happened
to look down and spy the pretty head-
gear which was a clear foot below her
range of vision with the stage. But it
was a tempting opportunity.

"Will you kindly remove your hat?"
asked the one in the rear as she leaned
forward and spoke in a noisy whisper.
"Certainly," answered the one in
front as she made rather a vicious
plunge for the anchoring pin. "I will
'kindly' take off my hat. Will you
kindly stop your talking and permit us
to hear this play?"

For full five minutes there was un-
broken silence, but it was a greater self
restraint than the large woman could
endure, and her annoying whisperings
again began. Suddenly the one in front
stuck the little hat upon the very sum-
mit of her head and pinned it there. It
seemed to have grown taller and of
greater circumference and looked just
like a defiant challenge worked into ar-
tistic millinery.

The large woman was too mad to
talk, and there was suppressed titter-
ing while those around beamed on the
little woman and were sore tempted to
give her a hand by way of applause.--

"Shabby Old Coat."

West Point was for the last ten years
of his life the summer home of Gen-
eral Scott, of whom Mrs. Sherwood, in
her "Reminiscences," pleasantly gos-
sips:

The hero of the Mexican war always,
on the Fourth of July, wore his old
military coat, the one in which he rode
into the Mexican capital "on top of a
picnic," as he used to say. "Very shab-
by old coat, madam, very shabby old
coat!" the gratified old man would ex-
claim as he felt a lady's hand laid gen-
tly on his army as she asked to touch
the sacred cloth. He wore the coat on
many historic days and was pleased to
shoulder his cane and fight his battles
over again.

Once, while telling the story of Ar-
nold's treason and pointing out from
the hotel piazza the spots associated
with the traitor, he said, referring to
Mrs. Arnold's devotion to her husband,
"She clung like ivy to a worthless
thing."

Birds Becoming Extinct.

From the New York Times: An in-
vestigation by the New York Zoolog-
ical society into the destruction of bird
and animal life in the United States
has shown that in four-fifths of the
area of the United States exclusive of
Alaska, bird life is being annihilated,
edible birds are rare and on the point
of extinction, and plume birds are prac-
tically extinct. These conclusions have
been reached after extensive corre-
spondence with naturalists, ornitholo-
gists, game wardens and others in a
position to speak authoritatively, and
a report embodying the results of the
investigation will be published in the
annual report of the society.

The Pope's Wealth.

The pope is one of the wealthiest men
in the world. In his home, the vati-
can, a palace which contains seven
thousand rooms, the worth of gold ob-
jects stored is estimated at \$4,000,000
by weight alone, and each piece has
been increased in value a quarter or a
third by the skilled artisans through
whose hands it has passed. These
treasures are practically the personal
estate of the pope, but he holds them as
a trust and lives among them in such
personal poverty that his expenses for
luxuries to gratify his own taste are
probably scarcely greater than those of
an American circuit-rider.

"Looking Indian."

"Why don't you look Indian for it?"
a small boy asked recently, on finding
his sisters vainly searching for a miss-
ing trinket which had been dropped
in the hall, and before the young ladies
could think what this might mean the
youngster had spread himself full-
length upon the floor, as near to the
dead level as possible. The missing
article was thus made plainly visible.

TIRED AND DESPONDENT

**Mrs. Bosler Speaks for Many Care-
worn, Complaining Women.**

Women in charge of homes and care-
worn, complaining people find their
strength permanently established by
the use of Paine's celery compound, the
greatest nerve restorer and blood puri-
fier the world has ever been blessed
with. Try it, and when you go to the
drug store for Paine's celery compound
see that you get it.

Mrs. Bosler speaks for countless
women who have suffered from aching
backs, worn and tired feelings, and
have been freed from pain and weak-
ness by Paine's celery compound. Mrs.
Bosler tells the story of her deliver-
ance from invalidism in the two follow-
ing letters:

Dear Sirs: Two years ago I came
from Nova Scotia, and I suppose my de-
bilitated condition was partly owing to
climatic influences. I used various
kinds of medicines, but continually
grew weaker, until it was with diffi-
culty that I could go up and down
stairs, and in trying to walk out of
doors, could go only a few steps when I
would be obliged to lean against a tree
or sit down. I had read frequently of
Paine's celery compound and resolved
to use it.

It put me on my feet again, so that I
began to take courage. I used several

bottles and I feel that I owe you a debt
of gratitude for the same. I recom-
mend the compound to my friends far
and near.

Yours gratefully, Mrs. C. B. Bosler.
After two years Mrs. Bosler still
praises Paine's celery compound.

St. Elmo, Tenn., June 23, 1896.
Dear Sirs: I still continue a friend
and well wisher of Paine's celery com-
pound, and have received replies from
my friends of its good results on my
recommendation. I wish you con-
tinued success. Yours truly,
Mrs. C. B. Bosler.

One of the largest retail druggists in
the city, whose business enables him
to feel the public pulse in the matter
of sickness and its cure, says, "Women
are peculiarly in need of a pleasant
tonic. They suffer from exhaustion,
and in Paine's celery compound they
find instant relief. Many families now
use it, and many wives give it to their
husbands when they return home at
night worn out from business cares. It
never fails to invigorate both the mind
and the body, and is a preparation that
meets a common want for a safe and
beneficial tonic."

Paine's celery compound is just the
remedy that suits the condition of
women run down in health, with un-
strung nerves, wasted bodies, and thin,
vitiated blood.

THE CUBAN DEBT.

There is some intimation that the terms of peace with Spain may include the provision that the United States or Cuba shall assume the responsibility for the paying of the Spanish bonds issued for carrying on the war against the Cubans.
THE NEWS does not believe that President McKinley would listen a minute to any proposition of this sort. The men who advanced the money for carrying on the unrighteous war in Cuba are equally guilty with Spain and they ought to lose every cent they invested.
The people of the United States will object to saddling this debt upon the Cubans and will much louder protest if any effort is made to have this country guarantee the payment of any such claims.
Spain is whipped to a finish and no concession of any sort should be made to her.
WHATEVER may be said in regard to Col. Roosevelt's plan to get his troops out of Cuba the end justified the means. But for the publication of the Roosevelt protest there would still be no effort to get the army out of yellow fever Cuba.

Spanish Laziness.
Labor, to Spanish pride, was the badge of inferiority, to be escaped in every possible way, says Henry C. Lea in The Atlantic. This national aversion to labor manifested itself in an indolence which rendered the pretense of working almost illusory. Dornier tells us of his compatriots that they did not work as in other lands. A few hours a day, and this intermittently, were expected to provide for them as much as the incessant activity of the foreigner. To these drawbacks on productive industry is to be added the multitude of feast days, which Navarrete estimates at about one-third of the working days, rising to one-half at the critical season of the harvests—feast days which, according to Archbishop Carranza, were spent in a debauchery rendering them especially welcome to the devil. Under such conditions it was impossible for Spain to withstand the competition of the foreigner.

SPAIN'S REPLY HERE.

According to a Madrid Report It Was Telegraphed to Paris Last Night.

SOME GUESSES AS TO ITS IMPORT.

Generally Agreed That the Spanish Cabinet Has Accepted McKinley's Terms.

Desire Indicated for a Suspension of Hostilities.—Believed by the Madrid Cabinet That the Note Will Be Satisfactory to Our Government—Important Fact Brought Out by Sagasta's Conference: The Spanish Nation Has Had Enough of This War.

Madrid, Aug. 8.—According to the most reliable sources of information the Spanish note in reply to the United States is couched in dignified language. It asserts that Spain bows to the force of circumstances, having done nothing to provoke the war, into which she has been unwillingly led in the defense of her rights and territory. It expresses a willingness to appoint delegates to meet the American commissioners to discuss a regime for the Philippines.

London, Aug. 8.—A dispatch from Madrid, dated yesterday, says: The cabinet council terminated after having completely confirmed the reply to the United States, which, it is said, accepts the American conditions. The reply will be telegraphed to Senor Leon y Castillo, the Spanish ambassador to France, tonight, so that M. Cambon, the French ambassador at Washington, will receive it tomorrow. The government is fully convinced that the note will be satisfactory to the Washington government and that a suspension of hostilities will be its immediate consequence.

Suspension of Hostilities Proposed.

Another Madrid dispatch has the following: From a well-informed source it was learned that while the answer does not discuss the four bases which the United States makes essential preliminary to peace, and which Spain accepts without reservation, it points out that in order to avoid the definitive negotiations being in any way complicated by incidents of the war it is expedient to agree beforehand to a suspension of hostilities. It is reported that Duke Almodovar de Rio, the minister of foreign affairs, and Monsignor Merry del Val, Spanish ambassador to the Vatican, will be selected to represent Spain in the negotiations.

Will Reach McKinley Tomorrow.

A dispatch from Madrid dated 12:30 p. m. yesterday says: Senor Sagasta, the premier, has just concluded his conferences with the queen regent. Her majesty approved the general lines of the reply of Spain to America's peace terms, which Senor Sagasta explained to her. The reason for postponing the cabinet council until 6 o'clock this evening is that the note is not yet fully drawn up. The government believes that the United States will accept Spain's answer, which will certainly reach the White House by Tuesday. As a consequence of the United States accepting the reply hostilities will immediately afterwards be suspended.

As the reply to the American terms was only submitted to the queen regent today all the reports of her approval yesterday of the American demands are necessarily without foundation.

Our Explanation Not Comforting.

The Madrid correspondent of The Times telegraphing yesterday says: Today all the best authorities agree that the government has decided to accept the American conditions. The American reply to Spain's request for explanations reached Madrid Friday evening. The text has not been divulged, but it is known that it brought little consolation. President McKinley turned a deaf ear to the suggestion that Porto Rico might be left to Spain and compensation sought elsewhere. Regarding the Philippines the reply was not altogether satisfactory, but it was of such a nature that there was no longer any necessity for postponing a decision on the main question.

SPANISH NATION WANTS PEACE.

That Was the Fact Gathered at Sagasta's Recent Conferences.

London, Aug. 8.—A correspondent telegraphing from Madrid this morning says: "Senor Sagasta's extensive consultations seemed to leave no doubt that the nation wants peace. I do not mean to say that all declared this in plain language. On the contrary, there was a deal of reticence. Some persons had more or less clearly expressed the idea that the best men in the country would patriotically forget for the moment all personal party considerations, and cordially and disinterestedly endeavor to assist the government in its difficulties. This idea, however, if it was ever seriously entertained, was not realized. Perhaps one or two acted in this spirit, but in most cases the cloven foot of the politician peeps out occasionally under the flowing robes of the patriot.
"Some only half concealed their suspicions that Senor Sagasta, in professing to consult the nation seriously, is in great crisis of the national history, was in reality playing the part of an old parliamentary hand, and astutely laying traps for his political rivals. If these suspicions had any real foundation Sagasta must be a consummate actor, for in all the interviews he spoke with apparent frankness and a sincerity and personal disinterestedness that might well have disarmed all but the most hardened politicians. Even when it was suggested that he ought to leave to more capable hands the task of concluding peace he displayed no impatience or resentment.
"He even showed the most perfect courtesy to Senor Romero y Robledo, listening with rapt attention to his absurd proposals. As to the context of Spain's reply the oracles differ. Some say it contains no contentious matter—accepts simply in principle the four demands of President McKinley's first communication, and suggests an immediate suspension of hostilities. On the other hand, others affirm that it is prefaced by an account of the origin of the war, tending to prove that as Spain was in no sense the aggressor she ought not to be expected to pay a war indemnity either in money or territory."

LOOKS VERY LIKE A HORROR.

Report of the Sinking of an Ocean Liner in the Straits of Belle Isle.

St. Johns, N. d., Aug. 8.—Inspector O'Reilly, of the revenue police, has arrived here from Tilt Cove. He states that he examined a man named Jenkins who brought news there respecting the reported loss of a liner steamship. Jenkins, who lives at Bryant's Cove, thirteen miles across Penguin peninsula, says a schooner from Quirpon Island, off the northern extremity of Newfoundland, at the entrance to the Straits of Belle Isle, arrived there and reported that on the previous night, while in the Straits of Belle Isle, she saw the lights of a steamer and heard a terrible crash, followed quickly by screams as of victims of a marine disaster. Then there was absolute silence, as if all had sunk.
London, Aug. 8.—There was a rumor at Lloyd's that the passenger steamer reported from St. Johns, N. d., on Thursday last as probably having been lost with all hands in the vicinity of Belle Isle was the Allan line steamer Numidian, Captain McNicol, which sailed from Montreal on Aug. 5 for the latter port. The officials here of the Allan line discredit the rumor.

MINERS WANT A UNION LABEL.

Point of Difficulty in the Conference of Coal Men at St. Louis.

St. Louis, Aug. 8.—The conference between the Illinois coal operators and representatives of the miners ended in a wrangle and an adjournment until tomorrow afternoon. It is hoped that the temper of both sides will be cooled by that time and they can come to an understanding. The question of the present strike was not taken up, the entire session being devoted to a question of a label. While a number of the operators are in favor of the official adoption of a label, the majority are not.

It is said by the miners' representatives that the outcome is difficult to forecast; that the miners are determined to enforce a rule for a label, and that the operators must accept it. It is the general impression that a split-up is imminent. The operators say that a label is useless; that it will not do away with strikes, as maintained by the men. The strike question will come up at the next meeting.

Scores on the Ball Field.

(Sunday) At Cincinnati—Baltimore 1, Cincinnati 4; at Louisville—Brooklyn 8, Louisville 3; (second game) Brooklyn 6, Louisville 5; at St. Louis—New York 12, St. Louis 1; (second game) New York 8, St. Louis 6; at Chicago—Pittsburgh 4, Chicago 2.

Western League: At Minneapolis—St. Paul 2, Minneapolis 7; at Milwaukee—Columbus 8, Milwaukee 7; at Indianapolis—Detroit 3, Indianapolis 10; at Kansas City—St. Joseph 4, Kansas City 14. (Sunday) At Kansas City—St. Joseph 3, Kansas City 9; (second game) St. Joseph 0, Kansas City 6; at Indianapolis—Detroit 3, Indianapolis 2; at Milwaukee—Columbus 12, Milwaukee 11; (second game) Columbus 2, Milwaukee 4; at St. Paul—Minneapolis 1, St. Paul 2; (second game) Minneapolis 11, St. Paul 2.

Oshkosh Strike in the Courts.

Oshkosh, Wis., Aug. 8.—The sash, door and blind manufacturers, whose efforts to start their factories are being resisted by a numerous and violent contingent of their former employees, carried the war into Africa Saturday and caused the arrest of two of the strike leaders, a third for whom a warrant was issued not being located. The men arrested are Thomas L. Kidd, secretary of the National Woodworkers' union, and Geo. Zenter, a local light.

Required Nerve to Ask This Pardon.

Springfield, Ills., Aug. 8.—The state board of pardons has refused to exercise clemency in the case of George Bogart, ex-city clerk of Evanston, who is now under sentence to the penitentiary for embezzling \$8,000 of the funds of the city of Evanston. The board sees no reason for interfering with the sentence, and Governor Tamm, acting upon the suggestion of the board, denies the application for a pardon.

Stanton Fooled Away His Money.

Chicago, Aug. 8.—Mrs. Nathaniel Stanton, whose husband disappeared on July 27, has received a note from Stanton explaining his absence. According to this note Stanton lost \$1,250 in speculation on the board of trade, and was so overcome when he reflected on his loss that he did not dare go home. He staid at the house of a friend in Indiana avenue.

Cotton Mills Will Not Close.

Fall River, Mass., Aug. 8.—The movement which was begun here last month having for its purpose the closing of twenty-five or thirty of the principal cloth mills of this city for four weeks has failed. The Fall River Cotton Manufacturers' association held a meeting Saturday and voted to abandon the attempt to agree on a general curtailment policy.

Elkes Defeats Tom Linton.

Philadelphia, Aug. 8.—Harry Elkes Saturday night defeated Tom Linton in a twenty-five-mile race at Willowgrove, going the distance in 42 minutes 42 seconds. Elkes continued riding and broke the one-hour record, making 34 miles and 1,123 yards. Edouarde Taylore lowered the mile record to 1:32 3-5.

Fusion Assured at Milwaukee.

Milwaukee, Aug. 8.—Fusion of the Democrats and Populists in this county is now assured. Chairman Brice, of the Democratic county committee, has appointed a committee to confer with the Populists and it is conceded that the latter party will be offered a place on the state ticket.

Michael Defeats McDuffee.

Willow Grove, Pa., Aug. 8.—Jimmy Michael Saturday afternoon defeated Eddie McDuffee in their twenty-five-mile match race by sixty yards. No records were broken. Time, 48:35 1-5. Michael led nearly all the way.

BAKING POWDER

ROYAL BAKING POWDER CO., NEW YORK.

For the "Only Girl's" Picture.

It is now the best of form for a man to carry his adored one's photograph about with him in a frame that has recently been invented, especially for masculine pockets. This frame, in fact, holds two photographs, folding over and bringing the two faces together when shut. To be quite in the fashion, he must have a full-face and a side face view of the "only girl." These cases are known as "men's double photograph frames," and are made of different sizes, of wood or thin metal. They take up very little room in the pocket, and are being quite universally adopted by the younger men of fashion.

CHIEF of Police Hepler and all the officers appeared in their new uniform caps yesterday.

FIFTY people went to Berrien Springs yesterday morning on the M. B. H. & C. train.

THE monthly business meeting of the Congregational C. E. will be held at the church this evening at 7:30.

THE ladies aid society of the Congregational church will meet at the church tomorrow afternoon at 4 o'clock.

THE regular rehearsal of the Evening News band has been postponed from tonight until tomorrow night.

Clarence Skinner who represents a New York stationery house on the road left last night for a trip through Pennsylvania.

THE remains of the late Mrs. Stoddard will arrive here on the 10:53 train tomorrow morning. Services at St. John's church with interment at Crystal Springs cemetery.

THERE will be a mother's meeting at the Congregational church at 2:30 o'clock this afternoon. The subject will be "Different Methods of Training Children." Mrs. George Morton, leader.

A MEETING of the Uniform rank, Knights of Pythias, and the members of the subordinate lodge who expect to attend the convocation at Indianapolis, will meet tomorrow evening at the office of Dr. John Bell.

At the monthly meeting held at Buchanan last Saturday by the Berrien County mutual, \$135,000 worth of property was insured. The assessment roll is nearly finished so that the policy holders will soon get their notices of assessment.

MANY people who watched the circus unload noticed a white horse that was so lame it could scarcely walk. The horse three weeks ago was the pet of the show and the best ring horse in the outfit. Two small pieces of gravel worked into the animal's hoof.

ON Friday of last week a resorter while bathing in the St. Joseph river in Sodus township stepped upon a broken bottle which lacerated his foot so badly that Dr. Harrison was called to dress the wound. The patient was very weak from the loss of blood.

THE steamer City of Milwaukee carried 1475 people to Chicago last night on the 6 o'clock run and refused passage to many who wished to go. The Auxiliary cruiser, the City of Louisville, took 100 people, the balance of the crowd. The steamer Ford took the night run of the Louisville to Chicago.

SATURDAY evening Rev. George A. Sahlin united in marriage at the home of Mr. and Mrs. Lane in St. Joseph, Neil Bernard, of Chicago, and Miss Mamie Kilpatrick, of St. Joseph. Mr. Bernard was formerly a compositor on THE NEWS and now holds a responsible position with a Chicago printing house. They will live in Chicago.

THE Y. M. C. A. excursion to Somerleyton on the May Graham Saturday night was well patronized and the association cleared \$20 and over. This is the first time that the Y. M. C. A. has made anything from any enterprise they touched since their excursion to Chicago three or four years ago. The financial success of Saturday night's excursion was due largely to the hustle of Secretary McClave.

A MOTHER'S meeting under the auspices of the W. C. T. U. will be held in the Rescue Mission rooms Wednesday afternoon at 3 o'clock. Miss Sweeting of Watervliet, county president, will preside, and Mrs. Lee and Mrs. Hoag have charge of the program. An earnest invitation is given to those interested to come and aid by song, music, question or answer, in making the meeting pleasant and instructive.

H. A. FOELTZER called a bluff on a tramp once but he never will make the mistake again. Saturday afternoon a tramp begged for the price of a supper. By the side of Mr. Foeltzer's clothing establishment was a pile of brick left over from building the sewer. Mr. Foeltzer told the tramp he was too poor to help but if he would move the pile of brick twenty feet to the east he would give him a quarter. Mr. Foeltzer expected the tramp would start like one scared and he was more surprised when the tramp went at the work of moving the pile of brick with a vengeance. There is one man in town who would not wager a quarter that tramps are too lazy to work.

RESOLUTIONS

Passed on the Death of the Late Capt. Robbins.

The following Masonic resolutions have been passed:

Brethren: Your committee appointed to draft suitable resolutions of condolence on the death of our late brother, Nathaniel Robbins, who was so suddenly stricken down while in active discharge of his duties as superintendent of the eleventh district life saving service, on board of the revenue steamer Fessenden, offer the following: Whereas, We sorrow at this time because death has invaded our sacred portals, and in the removal of Brother Nathaniel Robbins, there passes from earthly view one who has graced every position in life that he has ever filled, a most genial and devoted friend, a just and upright Mason, therefore,

Resolved, While we deeply deplore the loss of our brother we tender to all of the bereaved family our kindest regards, our deepest and heartfelt sympathies and most devoutly pray that with them and ourselves at life's close we may be admitted to higher and holier spheres, and that this life of toil and labor may be exchanged for that everlasting life which abounds with all good, to those who have been faithful to the end.

Resolved, That this lodge wear the usual draperies of mourning for the space of thirty days, and that a copy of these resolutions be sent to the family of the deceased and the same be spread upon the minutes of the lodge.
